To Our Dear Friends of the United Mashadi Jewish Community,

On behalf of Keren Kayemet LeIsrael – Jewish National Fund, we extend our heartfelt gratitude for your generous contribution of 200,000 NIS toward the renewal of the Arches Scenic Lookout in Switzerland Forest.

Perched high above the Kinneret and the city of Tiberias, this special site offers one of the most breathtaking panoramic views in northern Israel. For hundreds of thousands of visitors each year, it is a place to pause, connect with nature, and experience the beauty of the Galilee.

Your generous gift will help restore and enhance this beloved landmark, ensuring that it continues to serve residents and visitors for generations to come. The renewed lookout will preserve the unique character of the site while providing a safe, welcoming, and inspiring destination for the many families, hikers, cyclists, and travelers who visit the forest each year.

Switzerland Forest is a flourishing green sanctuary spanning 3,000 dunams. Today, with its trails, picnic areas, and scenic viewpoints, it welcomes approximately 600,000 visitors annually and stands as a living symbol of environmental stewardship and the enduring connection between people and the land of Israel.

Your support of this project reflects a profound commitment to preserving Israel's natural treasures and enriching the lives of all who enjoy them.

May this beautiful place stand as a lasting tribute to the values of community, generosity, and dedication that the United Mashadi Jewish Community so exemplifies.

With sincere appreciation and warm regards,

Sharon Geva
